

MOTH RECORD 15-16TH MAY 2010

<u>SCIENTIFIC NAME</u>	<u>COMMON NAME</u>	
1. Actinic 15w Box trap in field hedge		
Anticlea derivata	Streamer	1
Petrophora chlorosata	Brown Silver-line	1
Plagodis pulveraria	Barred Umber	1
Opisthograptis luteolata	Brimstone Moth	1
Odontopera bidentata	Scalloped Hazel	2
Laothoe populi	Poplar Hawk-moth	1
Clostera curtula	Chocolate-tip	2
Calliteara pudibunda	Pale Tussock	1
Spilosoma lubricipeda	White Ermine	1
Diaphora mendica	Muslin Moth	11
Lacanobia thalassina	Pale-shouldered Brocade	1
Orthosia cerasi	Common Quaker	3
Orthosia incerta	Clouded Drab	8
Orthosia gothica	Hebrew Character	18
Colocasia coryli	Nut-tree Tussock	4
Abrostola tripartita	Spectacle	2
Number of Species =	16	58 moths
2. Actinic 15w Bag trap on wooded slope		
Eupithecia exigua	Mottled Pug	2
Odontopera bidentata	Scalloped Hazel	1
Lomographa bimaculata	White-pinion Spotted	1
Cerastis leucographa	White-marked	1
Orthosia gracilis	Powdered Quaker	1
Orthosia incerta	Clouded Drab	1
Orthosia gothica	Hebrew Character	8
Colocasia coryli	Nut-tree Tussock	1
Number of Species =	8	16 moths
3. Actinic 15w Heath trap		
Odontopera bidentata	Scalloped Hazel	1
Orthosia cerasi	Common Quaker	2
Orthosia incerta	Clouded Drab	1
Orthosia gothica	Hebrew Character	6
Xylocampa areola	Early Grey	1
Number of Species =	5	11 moths
4. Daytime observation		
		16-May-10
Glyphipterix fuscoviridella		3
Cydia ulicetana		1
Number of Species =	2	4 moths
Total Number of Species =	23	89 moths

"Knucklas Castle gave the best results in the whole of Radnor, so we were really pleased"
